

On 10 September, the next issue of the fund industry

Interview with MFEX's Oliver Lagerström

“When, a week after having met with Oliver Lagerström and I sit and listen to the tape from the interview, the Financial Times drops on the floor inside the office doors with a lavish annex on Brazil entitled "The New Brazil". What could be more accurate? But, let's get back to why Brazil is an interesting topic in an article about Oliver Lagerström and his almost decade-long creation - MFEX. What started with an idea of fund trading on the internet and the launch of fondmarknaden.se has today grown into a major international provider of infrastructure for funds distribution in Europe”
